DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language.

This claim is an omnibus type claim. See MPEP § 706.03(d).

Regarding claim 1, the limitation "the idea to put part of the dome of a hermetic (or semi hermetic) refrigeration (or a/c) system between the motor stator electrical winding and motor rotor to isolate these two in different medium to solve the heating problem" with reference to Figs. 4, 5, and 6 is indefinite because it does not point out what part of drawings is included in the claim. In lights of the specification, the Examiner interprets the limitation as "the stator of electric motor in a refrigeration system having a shell to isolate the rotor and the stator".

Regarding claim 2, the limitation "the idea to cut the stator poles of mike 8001(or 8001-1) induction motor design in a way shown in FIG.7 (mike 8002 stator design), so the stator electrical winding and most part of stator pole with stator body can be detached from the rest part of motor and replaced easily" is indefinite because it does not clearly show what is included in the claim. In lights of the specification, the Examiner interprets the limitation as "the stator of electric motor in a refrigeration system having a shell to isolate the rotor and the stator and the stator can be replaced easily"

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Shoykhet.

Regarding claim 1, Shoykhet discloses the stator (68 in Fig. 4) of electric motor in a refrigeration system (the refrigeration system to bring the temperature of superconductor down to operating temperature) having a shell (60) to isolate the rotor and the stator.

Regarding claim 2, Shoykhet also discloses the stator (68 in Fig. 4) of electric motor in a refrigeration system (the refrigeration system to bring the temperature of superconductor down to operating temperature) having a shell (60) to isolate the rotor and the stator and wherein stator can be replaced or removed easily.

Conclusion

3. An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon

Art Unit: 2834

skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

Applicant is advised of the availability of the publication "Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office." This publication is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hanh N Nguyen whose telephone number is (571) 272-2031. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Darren Schuberg, can be reached on (571) 272-2044. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9306 for regular communications and (703) 872-9306 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1782.
